As a junior C.S. major at GMU, I've been honing my skills in problem-solving, OOP, data structures, and web development. From data manipulation to webpage design, I've explored a variety facets in computer science. I am now seeking to gain employer experience and build upon my education!

EXPERIENCE

MAY 2020 – AUGUST 2020

FINANCIAL SOFTWARE ENGINEERING INTERN, FREDDIE MAC

Work full-time to develop a financial modeling application that visualizes grid data usage. We built an internal web application that visualized grid usage of Freddie Mac financial tools, using python, pandas, django, and bokeh charting.

FEBRUARY 2020 – MAY 2020

WEB DEVELOPMENT INTERN, FROST MOUNTAIN LLC

Working part-time for a startup dealing in data analytics and error handling. Using, ColdFusion and SQL (oracle/MySQL) we consolidate data from the multiple services a client may have. We also parse server-output errors to provide useful information when they would otherwise be too difficult to trace.

APRIL 2018 – PRESENT

BRIDGE CREW (12C), U.S. ARMY RESERVE

As a reservist, I train to build bridges that meet the army's needs. We build a wide variety of bridges. Given a variety of conditions, we work as a team to problem-solve ways to build bridges anywhere.

FEBRUARY 2019 – PRESENT

CREW, CHIPOTLE

Prepare high quality, healthy Mexican food for patrons on the George Mason University campus. I work part-time as a griller and cashier.

PROJECTS

TRAILFINDER

I like hiking and running trails, so I decided to make a web app for finding trails to explore anywhere I go! It features Angular, Google Maps API, Firebase, and is a SPA.
